

Skills

HTML & CSS
JavaScript / TypeScript
React · Next.js
Node.js · Fastify
Python · FastAPI
Three.js / WebGL / R3F
Framer Motion · GSAP
Tailwind CSS
C++
PostgreSQL
Git & GitHub
OpenAI / Anthropic API

Strengths

- Fast & self learner
- Strong curiosity for tech
- Problem solving mindset
- End-to-end builder
- System design thinking

KAUSHAL RAJMANDAI

B.Tech Student · Web & AI Development

Summary

B.Tech CSE student at ITM Skills University with hands-on experience building full-stack and AI-integrated web products. Built a multi-model AI orchestration platform solo — spanning three services, live provider routing, and resilience engineering. Also ships cinematic web experiences with React, Three.js, and WebGL. Active in R&D Club; strong product thinking alongside technical execution.

Education

Bachelor of Technology (B.Tech) — Computer Science

CGPA: 8.52

ITM Skills University – School of Future Tech · 2025 – Present

Higher Secondary (Class XII) — Maharashtra Board

Physics, Chemistry, Mathematics, Computer Science

Experience

R&D Club – ITM Skills University

Social Media & Creative Design · 2025 – Present

- Designed intro cards, posters and event creatives for technical workshops
- Created workshop certificates and visual assets for club events
- Managed visual content pipeline for R&D Club communications

Projects

AI Orchestrator — Multi-Model AI Platform

github.com/kaushalrajmandai/Ai-Orchestrator · Next.js · TypeScript · Node.js · Fastify · Python · FastAPI · PostgreSQL · Clerk

- No-code platform where multiple AI models collaborate on a goal — orchestrator decomposes into tasks, routes each to best-fit provider (OpenAI, Anthropic, Gemini, DeepSeek), and assembles the final result
- Three-service architecture: Next.js frontend → Fastify API → Python FastAPI orchestrator, shared Neon PostgreSQL + pgvector
- AES-256-GCM encryption for API keys; adaptive fallback with exponential backoff + automatic provider failover; cost-aware model routing

Personal Portfolio — Cinematic F1 3D Website

kaushalrajmandai.github.io/My-Portfolio · React 19 · Vite · Three.js · React Three Fiber · Framer Motion · GSAP · Tailwind CSS v4

- Interactive 3D hero: draggable, zoomable, auto-spinning F1 car (Mercedes W13 GLB) on a transparent WebGL canvas; render loop pauses off-screen for performance
- Custom FIA-style race-start loader with lights-out sequence; editorial olive/teal design system with Fraunces serif typography and topographic contour backdrops
- Full sections with scroll-triggered Framer Motion animations — About, Skills, Projects, Experience, GitHub Activity, Contact

Strive Fitness — Interactive Gym Website

github.com/kaushalrajmandai/strive-fitness · JavaScript · Three.js · WebGL · HTML · CSS

- Premium dark-aesthetic gym website with cursor-driven WebGL image reveal, canvas spotlight/torch hover effects, parallax animations and custom cursor interactions

TutorBridge — One-on-One Tutoring Portal

github.com/kaushalrajmandai/Tutorbridge-portal · HTML5 · CSS3 · Vanilla JavaScript

- Responsive five-page tutoring platform with tutor listings, interactive booking calendar and pricing plans; deployed via GitHub Pages

Bulk Certificate Email Sender — Python Automation

github.com/kaushalrajmandai/bulk-certificate-email-sender · Python · Gmail SMTP · CSV

- Script that auto-sends personalised certificates via Gmail with zero third-party libraries
